CPD AT YOUR OWN TIME, PACE AND PLACE.

Why focus on osteoporosis?

The effects of a fracture due to osteoporosis can be serious, yet it remains an underdiagnosed and undertreated disease.⁴

Less than 20% of patients with a minimal trauma fracture are investigated for osteoporosis.⁴

Modules include:

- Why prioritise osteoporosis?
- Identifying osteoporosis
- Treating osteoporosis
- Initiating treatment: Case studies
- Ongoing management
- Managing lifestyle and behavioural factors
- Evaluating long-term management: Case studies
- Back in practice activity

Critical Consults in Osteoporosis ONLINE is a CPD-accredited Activity worth 40 points in the RACGP CPD program or 4.5 CPD hours in the ACRRM PDP.

Nurses can also complete the program and can self report for 4.5 CPD hours. For your records, a certificate will be available for downloading upon completion.
