

COVID-19 Vaccination SUITABILITY ASSESSMENT Non-VR GP (MDRAP & PEP or 19AB Exemption) (March 2021)

- The vaccine suitability assessment service is free to patients and the MBS items must be bulk billed.
- Where the service is provided on behalf of the GP/OMP there is no requirement for the practitioner to be in the same room as the patient. However, it should be noted that the practitioner billing the item is taking full responsibility for the service and must ensure they are available at the location if clinically required.
- Please note that if your practice is not one of those selected to receive the vaccine for administration then you are not eligible to claim the new MBS items for your patients.
- The Department of Health has published advice on the new MBS services with examples of difference patient and billing scenarios which you may find helpful. This is available on MBS Online under 'Fact Sheets' at www.mbsonline.gov.au. Item descriptors and MBS explanatory note AN.44.1 on these items may also be reviewed on this site by using the search function.

MBS Item Number	Dose and Time Period	Modified Monash Area	Item Value	Services rendered in business hours: <ul style="list-style-type: none"> • after 8am or before 8pm on a weekday; • after 8am or before 1.00pm on a Saturday.
